Motivated professional transitioning into Information Technology, with experience in programming documentation. Solid foundation in Python, JavaScript, CSS, HTML5, SQL, and UML, combined with hands-on experience in system modeling, documentation, and process standardization. Recognized for adaptability, quick learning, and delivering high-quality results. Looking to bring my skill set to a dynamic team and contribute to impactful, innovative projects in the tech industry.

TECHNICAL SKILLS

- **Programming & Web:** Python, JavaScript, HTML5, CSS, Bootstrap.
- **Databases:** SQL (advanced queries, data manipulation, integrity & security).
- **Tools & Platforms:** PyCharm, Visual Studio Code, JIRA, Postman, OutSystems.
- **Methodologies:** Agile, Scrum.
- **Modeling & Documentation:** UML, Software Documentation.
- **Other:** Software Testing, UI/UX Fundamentals.
